Date

Colorado River

Management Plan

Grand Canyon National Park

Arizona

1. The Edith, a cataract boat named for Emery Kolb's daughter, was built in 1911 from plans furnished by Julius Stone, and was used by the Kolb brothers on their Grand Canyon photographic expedition.
2. The Wen, an improved cataract boat, was designed by Norman Nevills, who pioneered commercial river running in the Grand Canyon. Used until 1949 in twelve river trips, this boat traveled 4,500 miles on the Colorado River.
3. First named the Susie Too, this boat was renamed the Music Temple for the great vaulted alcove in Glen Canyon now beneath the waters of Lake Powell. Used for ten years after its launching in 1963, the Music Temple was replaced with larger, more efficient dories.

I.	INTRODUCTION .....	1
A.	Background.....	1
B.	The Problems and the Issues.....	1
C.	Legislative and Planning Influences.....	6
II.	RESEARCH AND PUBLIC INVOLVEMENT.....	8
